The Marine Discovery Center was founded in 1997 with the mission to protect and restore Florida's coastal and Indian River Lagoon ecosystems through education, research and community stewardship. We believe strongly in using hands-on, feet-wet programming to connect people to the diversity and astonishing beauty of our coastal waters.

Each year over 5,000 children and over 25,000 community members and visitors participate in education and restoration projects that protect the Indian River Lagoon. We depend on community support to help us monitor species diversity and water quality and provide scholarships for disadvantaged youth to get outside and connect to the natural world.

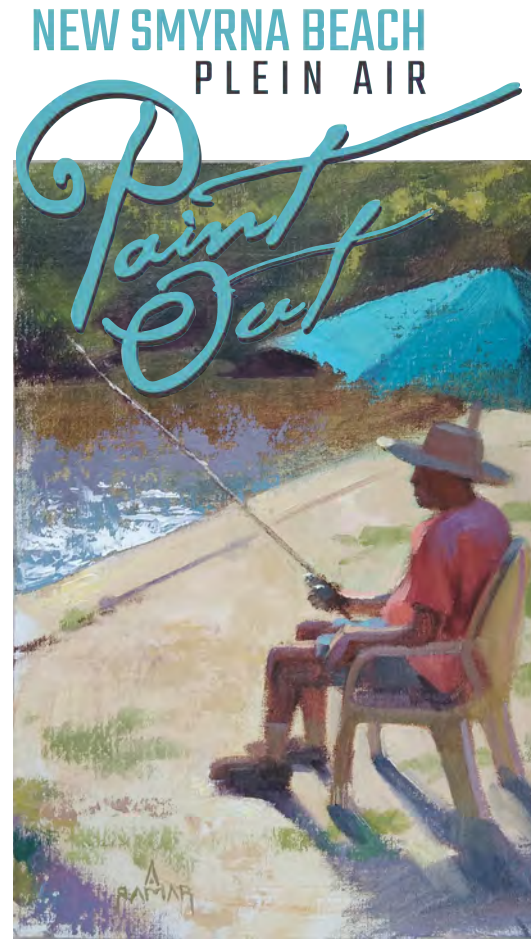

## ARTISTS' WORKSHOP NSB

The Artists' Workshop of New Smyrna Beach strives to enrich our community by offering a supportive, vibrant environment in which beginning, as well as experienced artists, have the opportunity to learn, create, exhibit and share their talents.

In 1957, fifteen art enthusiasts met and the idea for Artists' Workshop was born. Incorporated in 1958 as New Smyrna Beach's first non-profit arts organization, we have grown to approximately 500 members. We offer a wide variety of classes and workshops, opportunities for open studios, community outreach programs and the exhibition of members' art. Our galleries are located at 115 Canal Street and also in our studios which are adjacent to Marine Discovery Center. We welcome and encourage the community to participate in our many exciting programs!

By becoming a patron or sponsor you are pledging your support for conservation of the Indian River Lagoon and art programs in our community.
